

Turf Type Perennial Ryegrass

Palace

Product Sheet

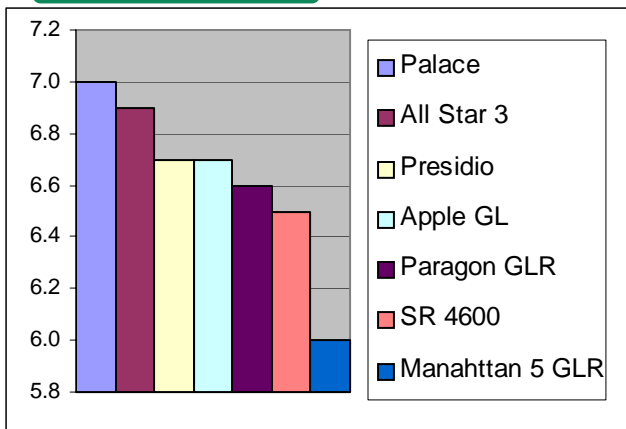

CHARACTERISTICS

Palace is a progeny collection that exhibits excellent turf quality, even under the highest management levels. **Palace** was developed to provide a dark green, dense turf that can withstand a number of disease complexes and environmental conditions.

Palace has shown excellent resistance to Gray Leaf Spot in a recent NTEP trial as well as resistance to brown patch, red thread, brown blight, crown rust, stripe rust and leaf spot. With a fine leaf texture and dense turf, **Palace** consistently rated near the top for wear tolerance.

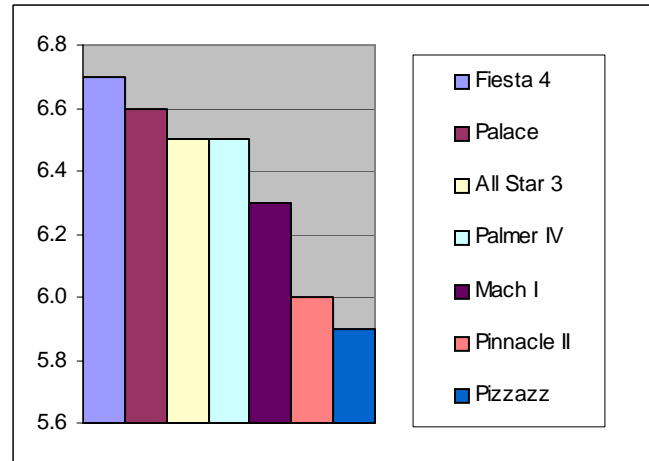

Palace has shown excellent winter activity and is able to survive the winter with little damage.
