

Citation III

Perennial Ryegrass

Turf Quality

Citation III has exceptionally dark green colour, which stands out in both over-seeding and permanent turf trials.

Disease Resistance

Citation III has good resistance to stem rust and red thread. Contains endophyte for natural above-ground feeding insect resistance.

Key Characteristics

Rich, dark green color with enhanced resistance to stem rust and red thread. Citation III also has outstanding performance in all trials. Overseeding, California, Arizona and North Carolina.

Seeding Information

In most seeding applications a rate of 8-10 lbs. per 1000 sq ft is recommended.
